

Drop Weight Specimen Notch Pressing Machine**KASONTTEST****Application:**

This machine is a specialized equipment with the advanced domestic technology level, which was based on the actual needs of customers in accordance with the GB/T8363-2007 of the gap. With the hydraulic loading, this machine can form a gap once and also can run steadily when making the specimen gap. It uses single-chip controlled technology, the operation is simple and can control accurately. The press sword has a long service life, every knife can make thousands of samples.

Main Specifications

Max.load: 2000KN.

Max.space:360mm.

Angle of pressed notch: $45^{\circ}\pm 2^{\circ}$.

Depth of opening: 5 ± 0.5 mm

Bottom of the knife: $0.025+0.013$ mm $0.025-0.023$ mm.

Power:380V,50Hz,3kW.
