

**KASON HBC Hammer  
Brinell Hardness Tester**

Hammer-hitting type  
Brinell standardized block

20X Readout microscope

**PRODUCT FEATURES:**

- It can be used to determine the Brinell hardness of ferrous, non-ferrous metals and tensile strength of steel products. It is especially suitable to determine the Brinell hardness of large heavy parts on the spot

**TECHNICAL PARAMETERS:**

Model	KASON HBC
Test range	<450HBS
Ball indenter dia	Φ10mm
Dimension	Φ25*110mm
Weight	0.5kg

**STANDARD CONFIGURATION:**

Hammer-hitting type Brinell standardized block	2 Pcs
20X Readout microscope	1 Pc
