

**KASON Color Fastness Tester**

KASONTTEST®

**Applications:**

Used for determining the dyeing rubbing fastness of colored fabrics, leather, and other materials such as cotton, chemical fibers, blends, and other materials.

**Applicable Standards:**

QB/T 2858-2007, GB/T 3920-1997

**Technical Parameters**

1. Display Method: Digital LED tube
2. Reciprocating Stroke: 104±3mm
3. Friction Reciprocating Speed: 60 times/min
4. Friction Head Pressure: 9N
5. Friction Head Dimensions: Round (diameter: Ø16mm), Rectangular (19mm×25.4mm, one each)
6. Number of Reciprocations: 1-9999
7. Overall Dimensions: 860×650×265mm
8. Workstation: 1 workstation
