

KASON-SS7038 Stiffness Special Sampler

(The picture is for reference only)

Product Introduction

This cardboard stiffness sampler is suitable for cutting samples for cardboard stiffness testing. It conforms to the relevant provisions of QB/T1671 standard and is an essential sampling tool for cardboard stiffness testing. It is an ideal testing auxiliary tool for industries and departments such as papermaking, packaging, scientific research, and quality inspection.

Technical Parameters:

Sampling Size: 70mm × 38mm (Stiffness Sampling)

External Dimensions, mm: 100×250×130

Weight: Approx. 9 kg

Product Features:

Punching sampling, high sampling accuracy.

Accurate sampling size, error ≤ 0.1 mm.

Easy and quick to use.
